

COLLEGE CONSULTING EXPERTS

Sophomore Starters Package

The **Sophomore Starters Package** is designed for the student who wants to get a head start in the college planning process and is ready to make the full 3-year commitment to College Consulting Experts. The program covers all topics in the Sophomore Starters Package + Junior Leap Package + Senior Stars Package.

During Sophomore year, we will have **3 strategic meetings** that will allow students to consult with the College Admissions Consultant during the months of October / January / February or March of Sophomore year to plan for the following:

- October meeting = Discuss / review extra-curricular activities to leverage and maximize the student's potential.
- January meeting = Discuss /plan for upcoming summer program opportunities.
- February meeting = Discuss / strategically plan course selection for Sophomore Year + continue to follow up on summer program planning and executing of summer program applications and essays.
- March meeting = If necessary, continue working with student on summer program applications and essays although we aim for early program submission by the end of February.

Upon the completion of our Sophomore year meetings, the student will then stay in touch with the consultant via email again in the Spring of Sophomore year and when the Fall of Junior year approaches, the Junior Leap Program will begin. Should your student join us after our initial October timeline, we will still discuss the above details and just tailor our timeline based upon when you join the program. Summer program application and essays are usually completed by the end of February to ensure early submission.

By having an extra year to begin the college conversations, students will begin to map a plan of action.

The best time to reserve a spot for this package is Spring before Sophomore year. The tuition for the Sophomore Starters package is \$7,500.
